Jackal Coin Report

Executive Summary

In an effort to ensure long-term sustainability and protect early contributors, Jackal Coin is implementing a vesting strategy for all participants of Presale Phase 1. This approach is designed to prevent sudden token dumps, maintain healthy liquidity, and reward early supporters with pricing advantages.

Objectives of the Vesting Strategy

- Prevent post-phase dumps that can harm token stability
- Protect Phase 1 investors by securing early-stage pricing advantages
- Maintain healthy liquidity until the official public launch

Vesting Details for Phase 1

Total Vesting Duration: 5 months

Cliff Period: 1 month after the end of Phase 1 (until September 12, 2025)

Linear Unlock: Over 4 months, from September 12, 2025 to January 12, 2026

Jackal Coin Report

Example Scenario

If an investor purchases 100,000,000 \$JACKAL tokens during Phase 1:

- They will not be able to sell any tokens until September 12, 2025
- Starting on that date, tokens will unlock as follows:
 - 25% on September 12
 - 25% on October 12
 - 25% on November 12
 - 25% on December 12

All tokens will be fully unlocked by January 2026.
